

The screenshot displays the Google Earth interface with a distance measurement tool active. A yellow line is drawn across a satellite map of a rural landscape, connecting two points. The tool's control panel at the top left shows the following details:

- Linea** (selected): Line
- Misura la distanza tra più punti sul suolo** (selected): Measure distance on the ground
- Lunghezza:** 17.10 **Chilometri** (selected)
- ☐ **Mostra profilo elevazione** (unchecked)
- ☒ **Navigazione con il mouse** (checked)
- Salva** and **Cancella** buttons

The map shows several locations labeled in Italian, including Pineta Nuova, Mazzafarro, Cancelli ed Arnone, and Cancelli ed Arnone. A yellow line with markers connects points with IDs such as 8951, 8733, 8903, 8903, 8731, 8965, 8965, 8989, 8989, 8990, and 8778. The bottom of the screen features the Google logo and the copyright notice "© 2021 Google".
